No Valance Option (Expressions Range Only) Reduce price by £1.50 per blind

Taped available at a surcharge + 20%.

Cords are used to operate the blind.

All control cords and acorns are colour co-ordinated with the slats.

A cord consolidator is fitted to all blinds to assist with child safety. A child safety device is still required.

Metal cord pulls available at £5 surcharge for set of x 3 on Expressions range only.

NB Refer to Table for Max Sq Mtr

Specification Sheet (Faux Wood)

How to Order:

To ensure we can process your orders as quickly and efficiently as possible the following information will need to be detailed on the order.
Please place orders at www.arena-blinds.com

Measuring:

The width & drop must be specified to the nearest 0.1cm

	Expressions	Urban	Essence
Min Width	32cm	32cm	32cm
Max Width	259cm	240cm	240cm
Min Drop	20cm	20cm	20cm
Max Drop	300cm	300cm	300cm
Max Area	4.8 SQM	4.8 SQM	4.8 SQM
Recess Deduction	1cm	1cm	1cm

The order needs to state which measurement has been taken. Please be aware of the following when measuring:

Exact - The measurement is the exact area you would like the blind to cover

Recess - This measurement is calculated by measuring the width from wall to wall inside the recess in three places and the drop from the top of the recess to the window sill. Please note a small deduction in width will be made to allow for fitting brackets inside the recess

No allowance made on on drops for either recess or exact. Drops made to tolerance of +/- 3mm on both blind & recess sizes

To help with the measuring & fitting of Infusion Blinds, you need to be aware of the size of blind you will receive. Using a 100cm blind as example - the following specifications apply to all ranges within the Infusion Collection:

	100cm Exact	100cm Recess
Headrail Width	99.6cm	98.6cm
Headrail Inc Brackets	100cm	99cm
Headrail & Valance	101.6cm	99cm
Slats Width	100cm	99cm

Headrail:

Please note that the headrail for each range is different

	Expressions	Urban	Essence
Headrail Shape	Deco	U Shape	U Shape
Headrail Depth	6.2cm	5.9cm	5.9cm
Headrail Height	4cm	4.1cm	4.1cm
Headrail Material	PVC	Metal	PVC

Valance:

Valance style is different on all 3 ranges:

Expressions (Ramp):

Urban (Catenary):

Essence (Ramp):

Colours:

Please be aware that customised tape options are only available on Expressions range

For both Essence & Urban ranges - the tape colour shown below is the only option available for this colour

Handle Insert Custom

Bottom/ Top Measure from Left to Handle Centre

Left/ Right Measure from Bottom to Handle Centre

If you have a Handle Insert the tilt will be on the
opposite side to the Insert

Important Stuff to Know

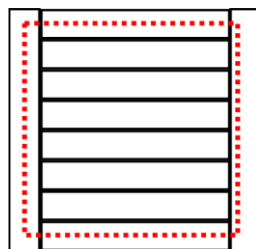

Bay Windows with opening windows will have different heights, as such the louvres **will not match in height!**

Air Vents and other obstructions

Your PF shutter frame will overlap the window frame by 25mm from the glass.
This should be enough clearance for vents and handles.

Always double check!

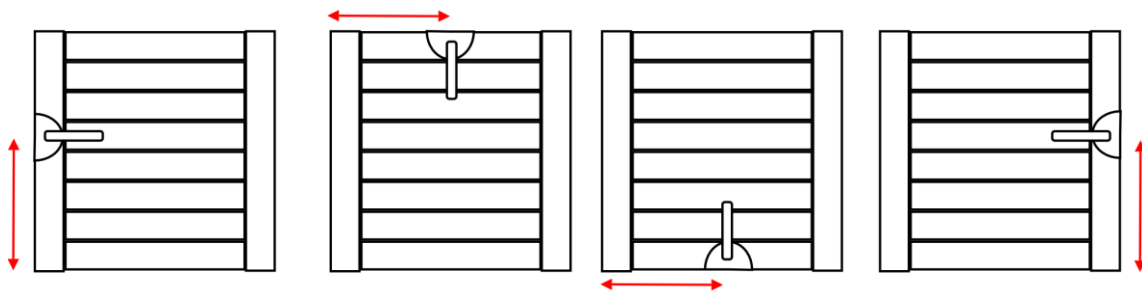

Handle Positions

Never assume the handles are central

For Left and Right Handles measure from Bottom up to the Centre of the handle

For Top and Bottom handles measure from Bottom Up

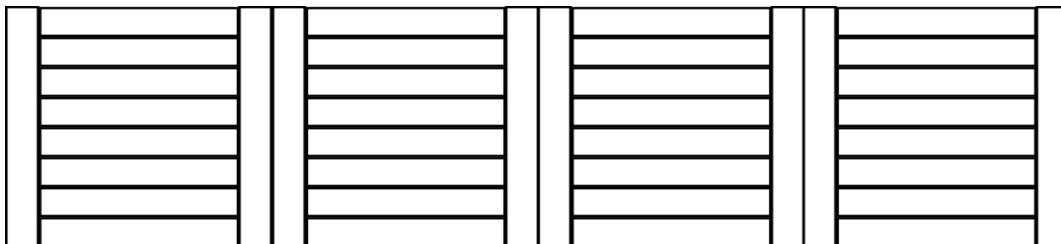

Always from the Glass not the window frame!

Wide Windows

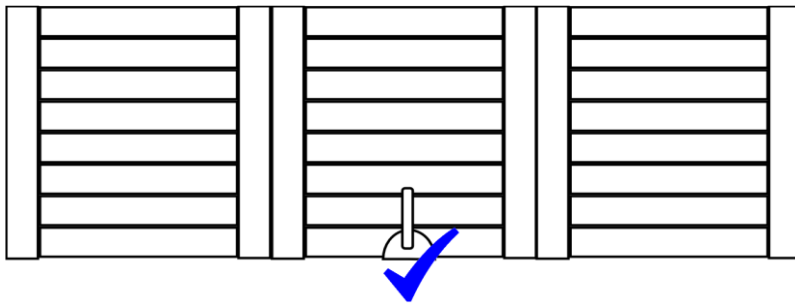

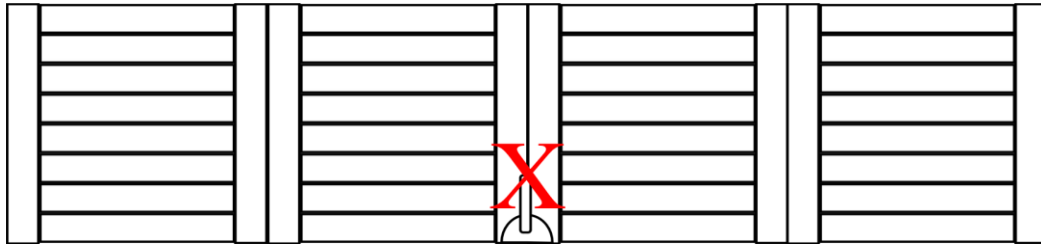

The maximum panel width is 750mm glass size, a window larger than this will need 2, 3 or more panels, depending on size. To calculate the size of the panels divide the glass width by the number of panels you need, ensuring you do not go over the maximum size of 750mm.

For Example, a 1200mm wide window divided by 4 would give 4 panels of 300mm width.

Wide Windows with Handles

If the handle is at the bottom or top and in the middle, you will need an odd number of panels because the handle rebate can't be cut out across 2 panels.

Multi Panels will always have a astragal to cover the gaps between the panels to give a neat finish

Light

The PF Shutter is not blackout and should never be sold as such.

The top and bottom rails are 6mm thinner than the side rails which will give a 3mm gap against the window. Always inform your customer to avoid issues down the road.

Clips

As standard you will have 4 clips, 2 at the bottom and 2 at the top

If the side rails are longer then 1mtr you will also have 1 side clip on each side at the centre.

Exclusive Stuff (Clip Covers & Shims)

Clip covers, the clips are not especially pleasing to the eye.

We have developed and made a "cover" to give a more finished Look, these are exclusive to us designed and 3D printed in house They will included with every order at no cost!

Shims, we also have a range of "packing" shims that sit behind the clip and the window frame, which will help the clip fit square and true into the PF Frame, this will help with clips not sitting correctly.

The shims can also be used for Sub 20mm frames using foam tape and the shims to suite.

E.G a window with 16mm bead depth can be fitted using a 20mm clip with a 4mm shim and foam tape to suite.
